Ayush Raj

MiBA Candidate at ESADE Business School | Economics Graduate
| Ex-Leadership Hiring Consultant | Aspiring Analyst (Business/
Financial/HR/Marketing/BI) | Python • SQL • Excel | Footballer at
Heart

Barcelona, Catalonia, Spain

Summary

MSc Business Analytics candidate at ESADE Business School
(Class of 2025–26), with a background in Economics from St.
Joseph's University, Bangalore.

My journey so far has been a blend of analytical thinking and human
insight — from studying statistics and quantitative economics
to working at a leadership recruitment consultancy, where I
collaborated with top MNCs to place senior leaders in Tech &
Analytics roles. This experience gave me a front-row seat to how
data-driven leadership shapes businesses.

Now, I'm taking a leap into the tech ecosystem, with a goal of
transitioning into roles such as Business Analyst, BI Analyst,
Financial Analyst, or even Data Scientist in Consulting or BFSI
domains. I have self-developed skills in Python, SQL, and Advanced
Excel, and I'm excited to level up with new skills in AI, Cloud
Computing, Data Science, FinTech, R, and more at Esade.

Outside the data world, I've played competitive football throughout
my undergrad and continue to bring that same drive and team spirit
to everything I do.

Experience

180 Degrees Consulting Barcelona

Analytics Consultant

October 2025 - Present (7 months)

Barcelona, Catalonia, Spain

Client: Spanish Electricity Retailer

- Analyzing key wholesale electricity price drivers — renewable generation,
gas prices, CO₂ costs, and demand seasonality across the OMIE spot market

- Developing a quantitative forecasting model utilizing Python & time series analysis on historical spot price data to generate 3–6 month price projections

Client: African NGO

- Audited and cleansed operational datasets, achieving 95%+ data completeness and 98% deduplication rate to ensure data integrity across reporting workflows
- Built donor-facing BI dashboards and optimized donation conversion flows using web analytics, driving 40%+ growth in donor engagement, 50% increase in conversion rates, and 25% improvement in session duration

Enpal

Strategy & Analytics Consultant

February 2026 - Present (3 months)

Barcelona, Catalonia, Spain

MSc Capstone Project

- Engineering a Social Influence Score using NetworkX, H3, GeoPandas, and Destatis to map customer acquisition potential across Bavarian districts
- Conducting market penetration and whitespot analysis across 2,000+ postal districts to identify underserved regions and quantify addressable sales opportunities
- Building a predictive lead prioritization model to score prospects by conversion propensity and optimize outbound sales targeting

Peyote Morgan

Associate Consultant

September 2022 - February 2025 (2 years 6 months)

Bengaluru, Karnataka, India

- Managed 30+ executive recruitment mandates across 14 MNCs with total placement value exceeding US\$4M, directly contributing to 40%+ of company revenue in FY 2023–24
- Delivered 12+ executive role closures leveraging multi-portal sourcing, talent mapping, and Gen AI tools, optimizing candidate segmentation to reduce time-to-hire
- Created a structured candidate database of 3,000+ profiles across multiple roles from 5 years of legacy data in Excel, applying data cleaning and deduplication to cut sourcing time by 20%
- Recognized as primary client POC within one year; onboarded and mentored 6 new hires on recruitment workflows, tools, and client management practices
