Ella Magdić

Business Analytics Student | Co-Founder, Accounts Payable Analyst
Barcelona, Catalonia, Spain

Summary

Business analytics student with a strong interest in operational optimisation, automation, and growth systems. I’m curious about how businesses scale from a product side, process and incentive perspective. I enjoy finding bottlenecks, designing better workflows, and using data to improve performance across teams. My goal is to develop as a solution analyst who bridges business and technical teams, translating data into actionable improvements.
