MSc in Business Analytics @ ESADE | Aerospace Engineer @ UPC
| Business administration @ UOC
España

Extracto

I consider myself a multidisciplinary professional with a background in Aerospace Technology Engineering and Business Administration, now advancing my expertise through an MSc in Business Analytics at ESADE. My journey has shaped strong analytical and problem-solving skills, complemented by business knowledge in strategy, project management, and digital tools.

Curious and adaptable, I thrive in diverse and international environments. I value collaboration, clear communication, and creative thinking, skills I strengthened through mentoring and cross-cultural projects. I am motivated by challenges that connect technology, business, and data-driven innovation.

Besides, I love sports, art and music.

Experiencia

Banco Sabadell

Student Analyst - Capstone Project

febrero de 2026 - Present (3 meses)

Barcellona

- Benchmarking traditional ML (Gradient Boosting) vs. LLMs for credit scoring, evaluating AUC/F1, stability, and cost-effectiveness on synthetic data.
- Assessing regulatory-compliant explainability (SHAP vs. LLM rationales) for credit risk decisions.
- Led weekly stakeholder alignment meetings and managed project deliverables across 4-month timeline.

CERN

Innovation Research Fellow

febrero de 2026 - Present (3 meses)

- Developing disruptive applications for HOPFEL, a bifurcation theory framework from European XFEL, within a multidisciplinary team of business, engineering, and design students.

Fundació Educativa Terrassa

Maestro

2022 - 2023 (1 año)

Terrassa, Cataluña, España

- Mentored high school students from low-income backgrounds, offering weekly academic support and tailored study plans.
- Achieved a 100% subject pass rate among participants by year-end.
- Facilitated conflict resolution and team cohesion by mediating discussions, promoting mutual understanding and collaboration.
- Developed strong communication and instructional skills by teaching complex topics in a clear, engaging way to students with diverse learning needs.
